Mr. BRABSON, from the Committee on Invalid Pensions, made the following

REPORT.

*The Committee on Invalid Pensions, to whom was referred the petition of Leopold Schneider, report:*

That they have carefully examined the papers and evidence in the case, and find that the petitioner was a private in the company commanded by Captain Bainbridge in the war with Mexico; that while in the line of his duty, and in obeying the orders of his superior officer, he received an injury, from which he still suffers. The department so far recognized his claim as to grant him bounty land, but rejected, for some technicality, his application for an invalid pension. The assistant surgeon general certifies that the petitioner was a private in the Mexican war, and that he was discharged on a surgeon's certificate at Fort Monroe for disability; and that he is, in consequence of such disability, disabled one-half. Your committee therefore concur in reporting a bill granting a pension at half the monthly pay of a private in the army.

Mr. BARROW, from the Committee on Invalid Pensions, made the following

# REPORT.

The Committee on Invalid Pensions, to whom was referred the petition of Leonard Schneider, report:

That they have carefully examined the papers and evidence in the case, and find that the petitioner was a private in the company commanded by Captain Lawrence in the war with Mexico; that while in the line of duty, and in obeying the orders of his superior officers, he received an injury from which he still suffers. The report further states that the petitioner is unable to perform his duty, and is unable to support his family, and is unable to obtain employment. The committee is of the opinion that the petitioner is entitled to a pension, and recommends that a pension be granted to him at the rate of \$10 per month, and that he be placed in the class of "disabled soldiers." The committee also recommends that the petitioner be granted a pension at half the monthly pay of a private in the army.
